

BUSINESSFIRST!
for a greater dayton region

**Resource Partner
Directory
2024**

This region is led by people who want to see our communities and businesses grow and Business First! for a Greater Dayton Region has been working together to make that happen since 2001. With more than 130 Resource Partners and Communities, our Region is fortunate to have built a team who is committed to creating progress, new investments and opportunities.

The key to this is talking with local business leaders to better understand their needs and connect them to the resources they need to be successful. Since the beginning of the program, Outreach Specialists have met with more than 10,000 businesses throughout the region. Each conversation and referral builds up our local economy and helps create and retain jobs and guides new investment.

Businesses that we work with cover a wide variety of industries, including defense firms, local insurance providers, healthcare partners, manufacturers and more. Each one contributes in a different way, whether it is supporting downtown Main Streets or filling industrial. The goal is to make them stronger and more resilient. Coordinating Business Walk and Roundtable events help to extend our reach and impact.

By working collaboratively, BusinessFirst! continues to make a positive impact on our communities and this region. This directory includes the partners and organizations who are committed to meeting and exceeding the needs of businesses throughout the greater Dayton region. We are better together because we put businesses first!

Table of Contents
